Dear Joe:

Enclosed please find the evaluation from Aware Inc. concerning the contents of the Airport's storage tanks which we discussed.

Sincerely,

BARTHOLOMEW, CLEARY,
STOKES, & MUDTER, P.A.

2. The water layer could be disposed of in the following ways:

- A. Treatment - Cliff Powell at Systems Technologies Incorporated indicated this waste was treatable at his facility. Since Metro-Nashville leases the plant to this company, perhaps a satisfactory arrangement to dispose of the waste could be made by you.
- B. Dust control - Location of an approved landfill site where the waste could be applied on the road surfaces is an attractive possibility.

We trust that this information meets your present needs. We will keep the samples for additional testing that you may require.

Sincerely,

John W. Dawson
Laboratory Director
